

PLSG Investment Portfolio

The Pittsburgh Life Sciences Greenhouse's capital investment programs provide the earliest rounds of funding for life sciences companies. Our investments fuel start-up ventures through their critical commercialization and company development milestones.

To fulfill our mission of regional industry growth, The PLSG assists our Portfolio companies in the pursuit of follow-on funding. We encourage venture capital firms, angel investors and other investment networks to contact PLSG to learn more about investment opportunities.

To learn more about our companies in the PLSG Portfolio, search our directory or call us at 412.201.7370.
